Every week, the Journalism class publishes the self-sustaining school paper, The Bomber Beam.

Although the course may be taken as an English supplement, most of the students take advantage of having both.

The class attends both fall and spring sessions of the Oklahoma Interscholastic Press Association held at the University of Oklahoma.

The Bomber Beam, an insert in the Midwest City Leader, represents ten years of publication and according to reports is advancing steadily in interest.

These students are learning the location of the different mechanical parts of the motor. These are the preliminary steps in learning what makes the wheels go round.

The students learn to shift gears, make smooth takeoffs, make U turns, park on hills, park diagonally and horizontally, drive between posts, back up straight, make hand signals, and how to turn around in the street. It takes about eight weeks of practice before the student can get his license. He takes his test from a representative of the Oklahoma Highway Patrol.

This course is offered in our school through the cooperation of the state and national American Automobile Association. To participate students must be sixteen years of age or older.

Are we proud of our Girls' Basketball Team? Well, ask any Midwest City High School student. We'll say we are. The only District Championship won in athletics by any team for Midwest City High was won this year by our girls. Their record reads 15 wins for the season against 9 losses. Under the able and excellent coaching of Miss Delena Melton these girls have won a reputation for fair play, excellent sportsmanship and splendid co-operation, which is demonstrated not only on the playing floor, but in all school activities. So we say "Hurrah, for our 1952 Girls' Basketball team!" They deserve their place in our "Favorites" section.

Some of the activities sponsored by the Student Council this year were: Homecoming Day, Annual Sales Campaign, Popularity Series, Frontier Day, Student-Teacher's Day, Assembly programs, Student Mixers after Football Games, Managing the paper stand, reflagging the flag pole, and two long range projects which they hope will be completed in the near future, namely the publication of a Student Directory and Handbook, and the installation of a Public Address System.

Under the excellent direction of Mrs. Mildred Lyon, Sponsor of the Council the students have not only been one of the busiest groups in school but have added to their own knowledge of democratic procedure and group leadership, and have contributed their time and talent to many groups in school and community. Representatives of the council attended the National Meeting of Student Councils in New Orleans, where they gained many new ideas from which the Council has profited. Each home room has a Student representative in the Council, and regular reports are made each Friday and plans made for the coming week. Students and teachers alike have learned to depend on Student Council Members when they have a job to be done which must be done quickly and well.

Chess, which was introduced as a Club Activity in Midwest City School by Mr. Robert Lyon of the Science Department is an interesting and fascinating game and is in no sense a game of chance. It is the most intellectual of all games of skill, for it not only trains the power of observation but is a mental contest which brings forth such qualities as foresight, resource, imagination, and ingenuity on the part of the players. Chess has often been compared to a game of strategy as played by two opposing generals on the battlefield, and it resembles war in the sense that it consists of attack and defense and has a definite object in view; that is, the surrender of the king, toward which all the moves of the game lead.

Mr. Lyon's group have taken part in several Chess Tournaments with various schools and have made much progress in interesting other students in the State in this ancient educational game.
